

As a disabled person, I was inconvenienced day and night, in my own home where I should be Queen, by nuisance, annoying phone calls. I resent having to get up, drag myself to the phone, to listen to clap-trap about something I have absolutely NO interest in. I would hang up immediately in disgust, but now I have to drag myself back to my chair.

The DO Not Call List was a blessing to me and all those who signed up. This wonderful law must be PROTECTED not diminished.

Thank you,
Mrs. Patricia Munn
